

# Setup eduroam Wi-Fi in Android

To use this service you need a @deec.uc.pt or @uc.pt account!

## DEEC Network Installation Manual on Android

### Introduction

In this document, the installation of the Eduroam Wireless Network will be presented step by step.

### Android

Go to "Settings", "Wi-Fi", select the "Eduroam" network, as in the follg image:

1623

Then choose the option "PEAP" in the field "EAP method", as in the following image:

1624

After that, new fields will appear to fill in.

In the "Authentication phase 2" field, you must choose the option "MSCHAPV2", as in the following image:

1625

Finally, you only need to enter your user credentials (fields: "Identity" and "Password") in the

[DEEC.UC.PT](https://deec.uc.pt) domain, as in the following example:

1626
