

Setup eduroam Wi-Fi in Windows 7

To use this service you need a @deec.uc.pt or @uc.pt account!

DEEC Network Installation Guide on Windows 7

Introduction

In this document you will be presented step by step the installation of Eduroam Wireless Network.

Windows 7

Go to "Start Menu", "Control Panel", "Network and Internet", "Network and Sharing Center":
Then click on "Set up a new connection or network":

1596

Then click on "Manually connect to a wireless network":

1597

The fields must be completed, according to the following image:
Attention, the "Network Name" is case sensitive.

1598

On the next page, go to "Change Connection Settings":

1599

The configuration to be made in the "Connection" and "Security" tab is explicit in the two images below:

1600

1601

On the “Security” tab, “DEEC Wireless Network Properties”, “Settings”, you should uncheck “Validate Server Certificate”:

1602

In turn go to “Configure” and uncheck “Automatically use login name (...)”:

1603

Finally, you only need to enter your user credentials in the DEEC.UC.PT domain:

1604
