VPN Client for teachers and researchers - Ubuntu

> To use this service you need a @deec.uc.pt account!

Installation

Install OpenVPN network manager by entering (copy/paste) into the terminal

```
sudo apt-get install network-manager-openvpn-gnome
```

When the installation is complete, restart the network-manager service

```
systemctl restart NetworkManager
```

Configuration

Download the OpenVPN profile: DEEC.ovpn

Go to the Network Manager and under VPN, click the "+" button

image-1667407490016.png

Click "Import from file..." and select the .ovpn file I've downloaded

image-1667407545580.png

Input your credentials and click "Add"

image-1667407690728.png

Connection

Finally select the network manager icon, go to VPN Connections and select the created VPN.
