## VPN Client for teachers and researchers - Ubuntu

To use this service you need a @deec.uc.pt account!

## Installation

Install OpenVPN network manager by entering (copy/paste) into the terminal

sudo apt-get install network-manager-openvpn-gnome

When the installation is complete, restart the network-manager service

systemctl restart NetworkManager

## Configuration

Download the OpenVPN profile: DEEC.ovpn

Go to the Network Manager and under VPN, click the "+" button

Q	Settings		Network _ 🗆	×
